## Fuel control APP for Wialon partner

### HOW TO WORK WITH US

Your main account is created by Geoloc Conseils with the number of vehicle you want to control for your customer . I mean you need to communicate the name your main account which is up your customer account to Geoloc Conseils but not your password

After you are recorded you can log to your own admin page by this link

<https://gestauto.eu/fuelcontrol/>

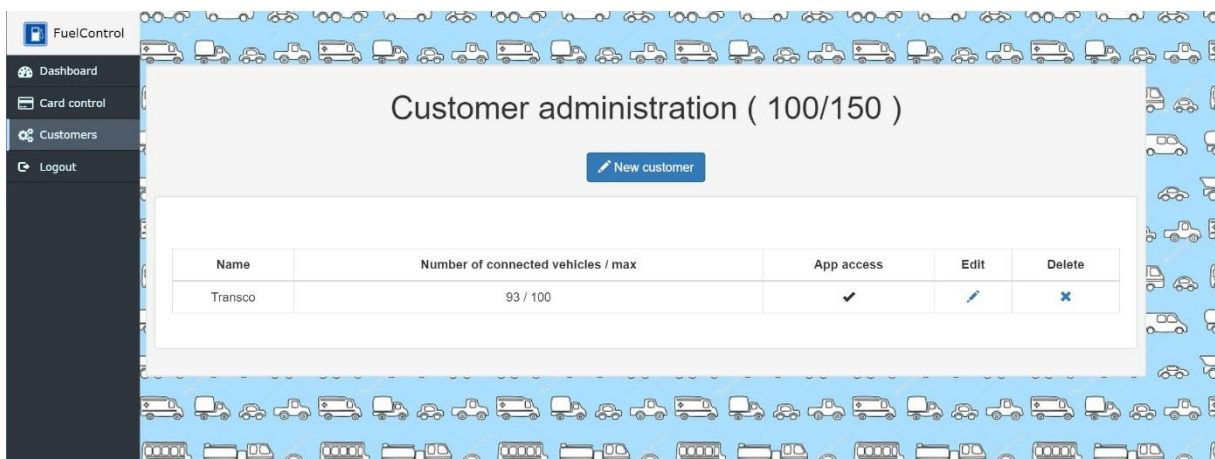

a standard Wialon login page appear

The image shows a Wialon login page. At the top center is the Wialon logo. Below it are two input fields: the first contains the text 'Bouvier' and the second contains seven dots representing a password. A blue button labeled 'Autorise' is positioned below the password field. At the bottom of the page, there is a small line of text: 'Si autorisé, FuelControl obtiendra un accès total à votre compte.'

you need to enter your account you give to Geoloc Conseils and your secret password

a new page appear

The image shows a dashboard for 'Customer administration ( 100/150 )'. On the left is a dark sidebar with a 'FuelControl' logo and menu items: 'Dashboard', 'Card control', 'Customers', and 'Logout'. The main content area has a blue border with a repeating truck icon pattern. At the top of the main area is a 'New customer' button. Below it is a table with the following data:

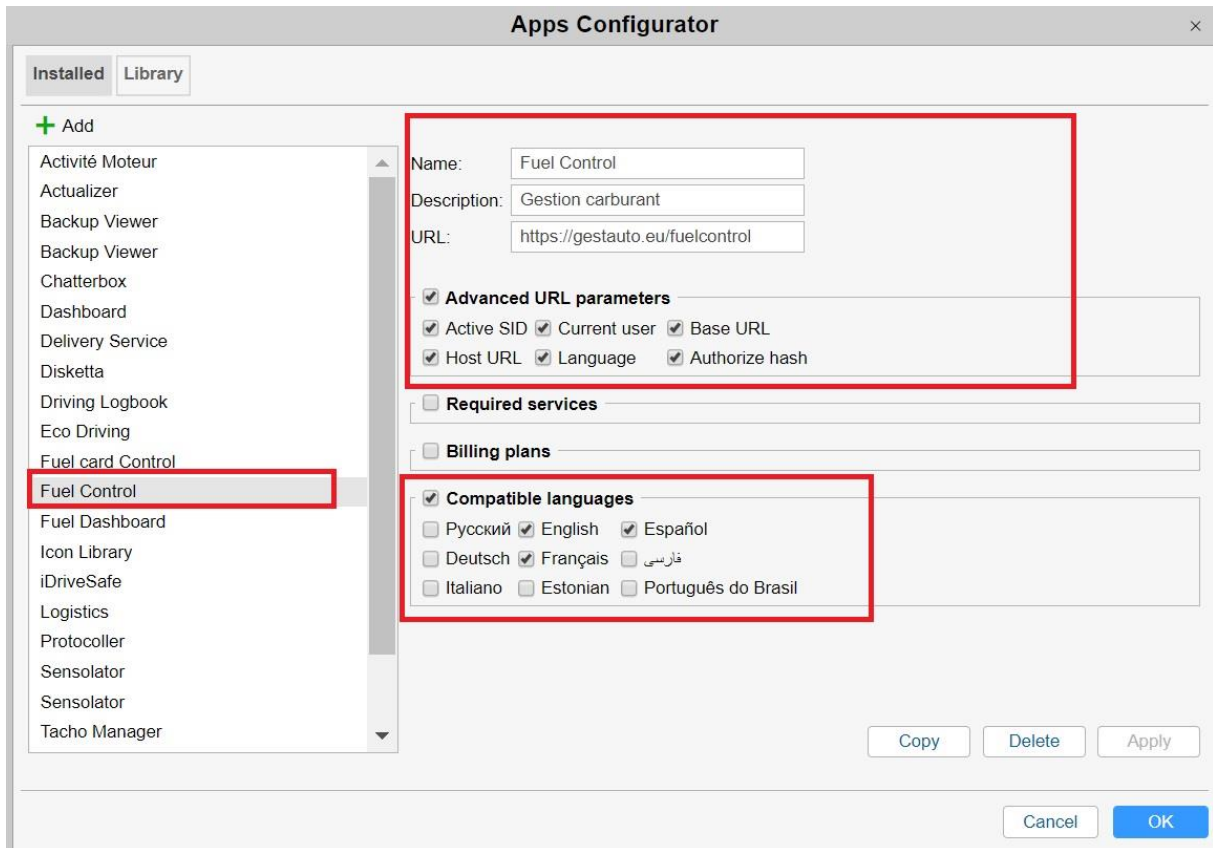

Name	Number of connected vehicles / max	App access	Edit	Delete
Transco	93 / 100	✓		

He you can create your new customer and set the number of trucks you want to allow him

You can also cancel app acces as you want or delete the account

## Fuel control APP for Wialon partner
